10 DOWNING STREET

THE PRIME MINISTER

17 July 1979

Dear Frank.

It was so nice to see you again and I must compliment Taylor Woodrow on the marvellous arrangements they made for my visit. I thoroughly enjoyed it and learned a great deal.

I was particularly interested in the work on "windmills" as well as the nuclear energy research. Thank you too for your wonderful support throughout the years. We need a lot more Frank Taylors if Britain is to make a full revival.

Yours ever

Alan

Sir Frank Taylor
