Prime Minister's Visit to Kenneth Baker's
Constituency (St. Marylebone): Friday 16 May

21/4/1980

I am enclosing a copy of a letter from Kenneth Baker and before I put it to the Prime Minister I would be grateful not only for your advice on the content of the visit, in particular the question about publicity and television, but also as to whether or not you will wish to go on this trip.

The Prime Minister is fulfilling Party engagements in Kenneth Baker's constituency of St. Marylebone on Friday, 16 May. She will be fully briefed by Party sources, but if you have any comments to make on the two companies she will be visiting I would be grateful for them by Monday, 12 May. The companies in question are Logica and Communications Studies and Planning. Logica is apparently a leading software and communication company and has a staff of about 800 people and a turnover of £14 million. Communications Studies and Planning has a staff of 20 and a turnover of half a million pounds.

Although I will contact you again about your recommended programme for the Prime Minister's visit to your constituency on 16 May, I thought I should let you know that it will not be possible for the Prime Minister to be in your constituency before 0945 as she has a 9 o'clock appointment here at 10 Downing Street.

The probable composition of the party will be:

Prime Minister	
Mr. Ian Gow	Parliamentary Private Secretary
Mr. Derek Howe	Political Press Officer
One detective	
Two drivers	
Possibly a Government Press Officer	

The Prime Minister will also have with her a Personal Secretary who will require a room with a desk and a telephone in both of the companies. If direct lines were available rather than having to go through a switchboard this would be a great help, but in any event I will need to know the telephone numbers.

Kenneth Baker, Esq., M.P.
