

10 DOWNING STREET

THE PRIME MINISTER

20 February 1981

*My dear Bishop,*

I am so pleased that you and Jean were able to come on Monday evening. It was great fun seeing you again.

Thank you too for your note about our High Commissioner in Delhi. It was thoughtful of you to point out that he is the son of Sir George Thomson, the physicist.

I have today received a copy of Edward Norman's talk which I am going to read again.

With all best wishes. *and warm regards*

*Yours sincerely*

*Margaret Thatcher*

The Right Reverend The Lord Bishop of Ely
