Boundary
Commission

18th June 1979

To: The Prime Minister

From: Lord Thorneycroft

I have spoken to the Home Secretary who is minuting you separately about the Boundary Commission. It is as you know, necessary that we should press on with the work of the Boundary Commission as speedily as possible in order that we can correct the imbalance of representation in many parts of the country. I hope every step will be taken to encourage this work to go ahead.
