

Williamsburg Issues

INF

Dinner this evening. I introduce discussion of arms control. Will seek views on desirability of short Summit statement on INF.

Main Economic Statement

How to handle French ideas eg on new Bretton Woods.

US Deficit

(Chancellor's minute attached).

Export Administration Act

Extra-territorial features fundamentally objectionable. Hope you will amend to remove these. If not, we shall examine legal steps to defend our companies.

Defence Sales to US

(Mr. Pattie's minute attached).

Don't want special treatment but a fair chance to compete - and to deliver the contracts we win.

Falklands

Hope you won't lift restrictions on arms sales to Argentina, even if democratic government elected. Must take further threat of aggression seriously. Will not negotiate on sovereignty.

Central America

Sympathy for your problems.

Our problem is Belize - have to remove our garrison in due course. Need your help to stop Guatemalan aggression then (US guarantee of Belize).

Middle East

Dangerous situation developing. Syria and Soviet Union.

Anglo/US relations

(Tony Parsons' minute attached).  
Worried about anti-Americanism. Each appoint a personal representative to discuss all the elements and report to us?
