Dear Mrs. Prime Minister,

Please accept my congratulations on the results of June 9. I look forward to our continued cooperation in the interest of both our countries.

In the European Communities we face a set of difficult problems. I trust that Britain under your leadership will go on to do her full part in Europe in the interest of the well-being and further development of European integration.

I would be very glad indeed when you could visit us soon in The Hague for thorough and informal talks.

Yours sincerely,

(R.F.M. Lubbers)

To the Prime Minister
