Dear Prime Minister,

Let me thank you very warmly for your kind letter of 25 May in which you pay such a generous tribute to my long years in public life.

These years have been enriched by the friendship and cooperation of the many eminent British statesmen I had the privilege to know and appreciate.

I have appreciated very much your attitude in helping to organize such an important international conference as the meeting at Cancun.

May I take this opportunity to extend warm wishes to yourself personally as well as to the British people.

Your sincerely
Bruno Kreisky
