Leader of the Opposition
House of Commons

Dear Margaret,

I have told Aubrey Jones that you are aware of his interest in Brussels but I have added that I know that John Davies is a runner.

When Aubrey spoke to me of his desire to be considered he spoke to me particularly of his interest in the "SNAKE". We then discussed the problems of aligning monetary policies if Britain were to work towards monetary union. From the conversation he evidently formed the impression that I do not know his attitude to such questions. *JK*

That presumably is the explanation of the enclosed letter to me which he has asked me to pass on to you. This I do because it is his wish.

Really there is no need to reply because I have told him that I have passed it on.

Keith
