Ask RR
ACB to deal

Rt.Hon. Mrs.
Margaret Thatcher MP.

21st September 1978

Dear Margaret,

You will wish to know that during a visit to Grimsby in support of Robbie Blair earlier this week I was specifically asked that you should make a policy statement about our policy in relation to the fishing industry.

I made, of course, no commitment on your behalf and simply repeated the standard attitude which I have learned from you and John Peyton, to whom I am copying this note.

I said that I would pass on their request.

I attach a paper I was given, the contents of which are probably familiar.

Keith Joseph
