## PUBLIC OPINION BACKGROUND NOTE 90

The results of our latest Gallup 'tracking 'study conducted from 4 to to 9 th November shows no significant change in the level of unprompted support for the parties. The survey found $28 \frac{1}{2} \%$ of the electorate claiming they will vote Social Democrat, $28 \frac{1}{2} \%$ Labour, $26 \frac{1}{2} \%$ Conservative and $14 \frac{1}{2} \%$ Liberal.

## PUBLIC OPINION BACKGROUND NOTE 90

(produced 16 th November 1981)

## 1. Introduction

The interviewing for our latest Gallup 'tracking' study was conducted from 4 th to 9 th November. The survey found almost no change in the level of support for the three main parties when compared with the results of our previous study conducted from 28 th $0 c t o b e r$ to 2 nd November. This latest study found $26 \frac{1}{2} \%$ of the electorate claiming they will vote Conservative ( $26 \frac{1}{2} \%-28$ Oct 72 Nov), $28 \frac{1}{2} \%$ claiming they will vote Social Democrat ( $29 \frac{1}{2} \%=$ 28 Oct/ 2 Nov), $28 \frac{1}{2} \%$ Labour ( $29 \%-28$ Oct $/ 2$ Nov) and $14 \frac{1}{2} \%$ Liberal ( $13 \%-28$ Oct/ 2 Nov). The combined level of support for the Liberals and Social Democrats now stands at $43 \%$ compared with $42 \frac{1}{2} \%$ in the previous study ( 28 Oct/ 2 Nov).

Details of the trend in support for the main parties on the standard Gallup unprompted voting intention question from both our unpublished tracking' studies and Gallup's published polls are shown in the table below:

|  | CON | VOTING INTENTION |  |  |  |  |  |

[^0]Our latest study did not include any 'prompted' questions on voting intention for the Alliance parties but we will have from late November information on the level of support for the Alliance based on a new prompted voting intention question that takes account of the existance of the Alliance.

## 2. Government Record

The latest study found a sharp improvemant in the level of approval of the record of the Government. $27 \%$ approve of our record but $64 \%$ disapprove. Details are shown below:-

## 3. Popularity of Political Leaders

Small increase in popularity of Mrs Thatcher and Mr Steel, almost no change in popularity of Mr Foot. Detals are given below:

|  | Mrs Thatcher |  |  | Mr Foot |  |  | Mr Steel |  |  |

## 4. Published Polls

(a) M.O.R.I. (Sunday Times 15 th November 1981)

An M.o.R.I. poll published in the Sunday Times on 15 th November and conducted between November 7 th and 9 th looked at attitudes to some aspects of the Government's economic policies.

Half of these M.O.R.I. interviewed thought the country's economic condition was going to get worse over the next 12 months, although $27 \%$ believed it would get better.

When asked about policies, $32 \%$ thought Labour had the best policies to deal with unemployment, comparedwith $16 \%$ respectively seeing the Conservatives or the SDP/Liberal Alliance as having the best policies. On inflation $30 \%$ saw the Conservatives having the best policies, $28 \%$ Labour and 14\% Liberal-SDP. When asked about which parties had the best policies for managing the economy, MORI found Conservatives and Labour neck and neck, each supported by $28 \%$ of those questioned, while Liberal-SDP support was well behind.
$52 \%$ of the electorate thought it was wrong for governments to borrow money to pay for their spending - only $33 \%$ did not think it wrong.
M.O.R.I. also asked:-
Q. Are you in favour of on opposed to these measures?
$\frac{\text { For }}{\%} \quad \frac{\text { Against }}{\%}$

Raising the level of income tax

$13 \quad 83$

Increasing prescription charges
$14 \quad 83$
Raising pensions by less than increase in prices

18 79.
Raising taxes on the goods you buy
$20 \quad 76$
Raising benefits to the unemployed by less than increase in prices $27 \quad 64$
Cutting spending on universities
30

## Cutting student grants

Charging parents for nursery education
42
Cutting spending on defence
Q. Are you in favour or opposed to the following?
$\frac{\text { For }}{\%} \quad \frac{\text { Against }}{\%}$
Local people being asked to vote on whether or not rates should be raised above a limit set by the government before local councils are allowed to do so
Spending more on investment projects in inner city areas
Spending more on providing jobs for young people
Q. Which would be the best for Britain
Eut taxes and cut government spending ..... 45
Cut taxes and increase government spending ..... 16
Leave things as they are now ..... 15
Raise taxes and cut government spending ..... 9
Raise taxes and raise government spending ..... 5
Don't know6
(b) N.O.P. (Observer 15th November 1981)

An N.O.P. poll published in the Observer on 15 th November and conducted on $26 / 27$ October looked at attitudes to the police.
N.O.P. found $87 \%$ of respondents claiming to have 'a fair amount' or 'great confidence' in the police and only $11 \%$ said they had little confidence or none. The majority of electors do not approve of issuing the police with either C.S. gas (54\%) or plastic bullets (59\%). Electors overwhelmingly ( $80 \%$ ) support the idea of the water-cannon to deal with rioters. There is also strong support ( $92 \%$ ) for giving police flame proof shields.

## $5 / \mathrm{KB} / 90$

When asked about qualities associate with police officers, N.O.P. found:-

- only $30 \%$ considered police honest
- less than half thought them fair
- only $17 \%$ thought them well-educated
- only $50 \%$ thought police treated the coloured population equally.

There is huge support $(88 \%)$ for proving more local ${ }^{\prime}$ bobbies on the beat'. A narrow majority ( $47 \%$ for, $41 \%$ against) thought extra control of the police through local police councils with some power would be a good idea. Less than half the sample were happy with the way complaints against the police were dealt: with.
